

Enclosed Isolation Transformers

| Part No | Rating | Voltage | Depth mm | Width mm | Height mm | Weight kg |
|----------------|---------------|----------------|-----------------|-----------------|------------------|------------------|
| ISO300 | 300 VA | 240/240 Volts | 240 | 150 | 120 | 4.5 |
| ISO600 | 600 VA | 240/240 Volts | 280 | 150 | 140 | 5.0 |
| ISO1000 | 1000 VA | 240/240 Volts | 340 | 260 | 160 | 10 |
| ISO2000 | 2000 VA | 240/240 Volts | 340 | 260 | 160 | 16 |

- All units are enclosed
- Input voltage 240V \pm 10% 50Hz. Australian flex and plug
- Output voltage 240V. Australian female chassis socket
- All units are double wound. Primary to Secondary fully insulated
- Optional Electrostatic screen
- All transformers incorporate "soft start" circuitry to eliminate inrush current problems during turn on.
- All enclosures are metal, with white powder coat finish.
- All enclosures are earthed on the input side
- Test Voltage 3.75 kV AC RMS
- All units are fuse protected on the 240V input side.
- All units are made to AS/NZS 61558
- ***Details are subject to change without written notification***
